## **Arriscraft Re-invents Thin Adair® Limestone**

CAMBRIDGE, ONTARIO – Arriscraft, manufacturer of naturally-made products that emulate quarried stone, introduces new Thin Adair® Limestone with more size and color diversity than its previous thin limestone product.

Arriscraft is the stone products group of General Shale, the North American subsidiary of Wienerberger AG and a leading manufacturer of brick, one of the world's oldest green building materials.

Arriscraft has replaced its Adair® Overlay product, with the introduction of Thin Adair® Limestone. This dynamic, thin product features three sizes (face rises of 1 ¼", 2 ¼" and 3 ½") in variable lengths and a random blend of natural sepia and blue-grey colors. A combination of veined, fleuri and cross-veined patterns augments the unique beauty of this natural stone product.

Thin Adair® Limestone installs like tile, in a dry mount style (without mortar) and can be oriented horizontally or vertically for incredible design versatility. Adair® is a natural limestone quarried in Ontario, Canada.

### **ABOUT ARRISCRAFT**

Arriscraft manufactures a vast range of premium stone for commercial and residential projects, including full-bed Renaissance® Masonry Units and Building Stone, Thin-Clad adhered and clipped veneers, Adair® Limestone, and cast accessories. Designers can select from a truly comprehensive line of styles - from old-world to contemporary – in natural colors, with custom applications available.

Headquartered in Cambridge, Ontario (62 miles/100 km west of Toronto), Arriscraft is the stone products group of General Shale, North America's largest brick, stone and concrete block manufacturer, supplying a wide variety of masonry materials for residential, commercial and specialty architectural projects.

Throughout the U.S. and Canada, General Shale operates manufacturing facilities in nine states and provinces, in addition to a network of 31 distribution centers across the United States. General Shale was founded in 1928 and is headquartered in Johnson City, Tennessee. For more information about General Shale, visit [www.generalshale.com](http://www.generalshale.com).
